## Share your farm/Request access

To collaborate with your advisor, distributor or others, you can share your farm with them or request access to their farms.

- 1. Share your farm with others
  - Log into xarvio FIELD MANAGER and click on your profile (top right corner of the screen).

• The next screen shows your profile and information connected to your account. Click on **Farms** to access farm related settings.

Farms can only be shared with registered FIELD MANAGER users from the same country.

## 2. Request access

You can request access to view, edit and manage other users' farm. This helps you in collaborating with any other farmers and advisors.

- Log into xarvio FIELD MANAGER.
- Click on your profile at the top right corner of the screen.

• The next screen shows your profile and information connected to your account. Click on **Collaboration** to see the option of requesting access to a farm.
