

Import fields from MyJohnDeere

You can simply import your fields to xarvio FIELD MANAGER from your MyJohnDeere account.

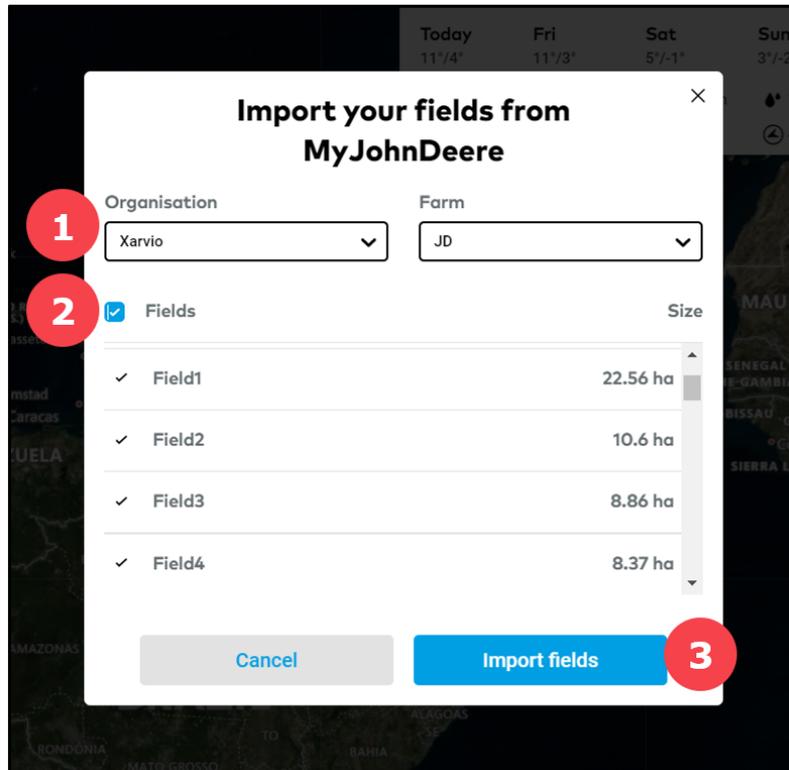

- After logging into xarvio FIELD MANAGER, click on **Add fields** on the **Status** page.
- From the pop-up screen, select **From MyJohnDeere** to start importing fields.

- If you have not connected your FIELD MANAGER and MyJohnDeere account yet, we will redirect you to MyJohnDeere page where you can log in.

- Once your accounts are connected, you will see a list of your fields.

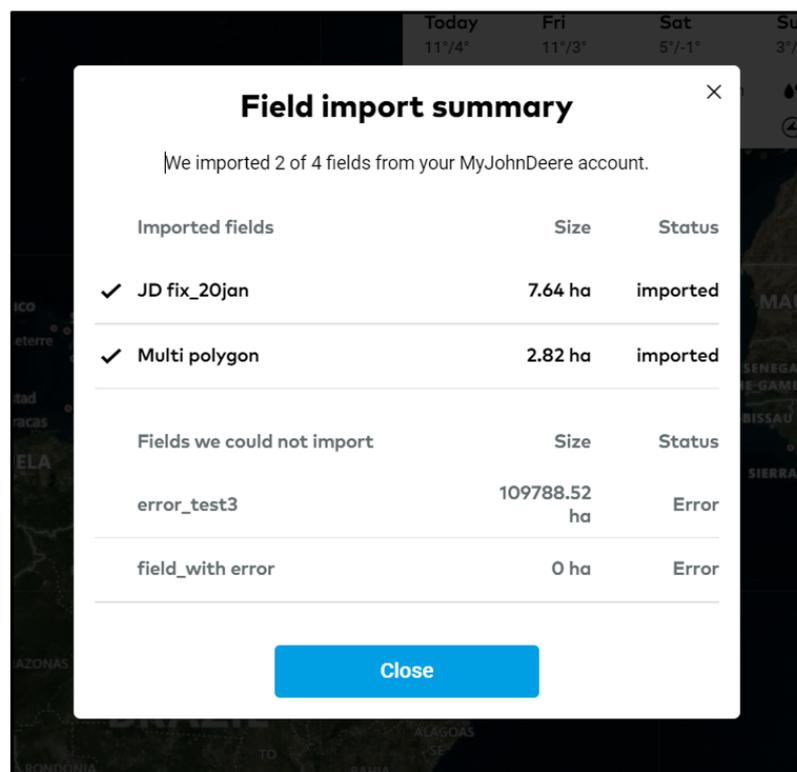

1. Choose the **Organization** and the **Farm** from the dropdown list.
2. Click on the checkbox to select all fields available under that farm.
3. Click **Import fields** to proceed.

Importing third party data can be challenging, we cannot always predict how it behaves. Contact our customer support if you experience anything out of the ordinary!

- After the import, you will get a **Field import summary**. Click on **Close** and you are done.
